

Aqara Door and Window Sensor P2

Slogan: When Iconic Sensor Meets Matter Support.

Marketing Text:

Aqara Door and Window Sensor P2 not only incorporates all the advanced automation and security features Aqara* is known for, but also gives users the option to connect it directly to third-party Thread border routers, such as smart speakers, and use all the benefits of the Matter smart home standard.

* Some features require Aqara border router, please check the description for more details.

Selling Points: (The selling points are ranked based on their priorities.)

- **Native Matter Support*:** Entering the Matter era, users no longer need to worry about different ecological platforms and technical protocols, and only need a Matter app and Matter-compatible Thread Border Router. This means that connections across ecosystems and platforms become simpler and easier.
- **Open/Closed Status Monitoring:** Stay informed and secure with real-time notifications on your smartphone whenever the sensor detects activity. You'll never miss a potential security threat and keep everything under control, whether you're at home or away.
- **Local Home Automation:** You can integrate the Door and Window Sensor P2 with your smart home ecosystem to enable advanced automations like adjusting thermostat settings or activating security cameras when a door or window is opened. Moreover, the automations are executed locally without cloud, which can protect the users' privacy and will keep working even if there is no internet connection.
- **Maximizing Efficiency with Voice Assistant:** Aqara Door and Window Sensor P2 supports Apple Siri and Alexa. With these voice assistants, you can receive alerts about events such as door entries, or ask about whether a door is open, keeping you on top of things at home. This keeps daily tasks running smoothly and conveniently, allowing you to make the most of your time.
- **Easy Installation & Maintenance:** The compact and stickable design makes P2 easier to integrate into various home environments, and users can place it in a variety of places and scenarios. Thanks to the powerful CR123A**, users don't have to worry about frequent battery replacement or maintenance.
- **Extra Features in Aqara Home app***:** The customizable settings through the Aqara Home app will be expanded with the launch of the Hub M3 in the near future. Users can fine-tune the sensitivity of the sensor within a range of 1-3 cm and adjust the sleep time based on specific scenarios, and also utilize the programmable button to trigger various smart home automations. Additionally, the Tamper Alarm feature will send immediate alerts to your smartphone if the sensor is tampered with.

Disclaimers

** To use the Door and Window Sensor P2 with a particular ecosystem, a compatible Thread Border Router and/or Matter controller are required.*

*** The battery life may vary depending on the border router and Matter app the sensor is connected to. For best results, Aqara border router is advised.*

****To support Matter over Thread devices in Aqara Home app, the Hub M3 is required. And the Aqara M3 Hub is estimated to launch in Q4, 2023.*

Automation:

1	Heading	No more lights suddenly turning off while you are in the restroom.
	IF-THEN	IF Contact sensor was opened (i.e., the toilet cover was opened, which indicates that the toilet is used) THEN Turn off the automation “Turn off the light if no motion was detected for 2 minutes”
	Devices	Door and Window Sensor P2 + Border Router* + Motion Sensor
2	Heading	Detect the status of your existing AC
	IF-THEN	IF The contact sensor was opened (i.e., AC was turned on) THEN Do not trigger your IR controller to run the “Turn the AC on” automation.
	Devices	Door and Window Sensor P2 + Border Router* + IR Controller
3	Heading	Save the energy when the door or window are open
	IF-THEN	IF a Door or window was opened THEN Turn off the thermostat to reduce energy consumption and your carbon footprint
	Devices	Door and Window Sensor P2 + Border Router* + Thermostat
4	Other	Alert System: the Door and Window Sensor P2 is a part of Aqara Home alert system: arm the system automatically using a Presence Sensor, and you will be notified immediately in case someone opens the door, drawer, or window while you are not at home *M3 only

5	Other	Door inside installation: should be possible to drill a hole and install the Door and Window Sensor P2 inside the door so that it will become invisible. A 23 mm drill bit is required. *M3 only, 3 cm is needed maybe

Specifications:

Product Name	Aqara Door and Window Sensor P2
Battery	CR123A
Model	DW-S02D
Wireless Protocols	Thread, BLE 5.0
Bluetooth Operation Frequency	2402-2480 MHz
Bluetooth Maximum Output Power	≤ 13 dBm
Thread Operation Frequency	2405-2480 MHz
Thread Maximum Output Power	≤ 13 dBm
Dimensions	77 × 22 × 22 mm (Sensor Main Unit) 36 × 11.5 × 7.3 mm (Sensor Accessory Unit)
Operating Temperature	-10 °C ~ 50 °C (14 °F ~ 122 °F)
Operating Humidity	0 ~ 95% RH, no condensation
What is in the Box	Sensor Main Unit × 1, Round Magnet × 1, Flat Magnet × 2, Sticker × 4, User Manual × 1
